

## TAURIS TP-601D

Transpak offers general-purpose automatic strapping machines with high reliability and performance. For wide straps application, we have the following models:

- Enhanced model automatic P.P. strapping machine Tauris TP-601D
- Enhanced model automatic P.P. strapping machine with low table Tauris TP-601L
- Economy model automatic P.P. strapping machine TP-6000

# AUTOMATIC STRAPPING MACHINE

# Tauris

Enhanced model

## TP-601D

Tauris TP-601D is an enhanced automatic strapping machine for wide straps (8 mm-12 mm). With the enhanced features, Tauris is the most powerful machine and the best price/performance ratio product in its class for wide straps general purpose application.

## Main Features

### Reliable and Robust Strapping Head

Robust mechanism design and high engineering standard ensure excellent durability of the products. Use two proximity switches to replace conventional limit switches.

### Electronic Tension Control

Strap tension can be adjusted accurately by the simple turn of a dial. Easy operation.

### Auto Strap Feeding

Simply insert the strap into the feeding rollers from the coil side of the machine and then push the "reset" button. The machine will automatically feed the strap without the need to access to the inside of the machine. Easy strap loading.

### Auto Strap Ejector

Loop-eject clears unwanted strap automatically if the machine is accidentally activated without a package. Eliminates downtime.

## More Features

### Short Feed Sensor

The sensor will detect whether the strap is at sealing position. If not, the start switch can not be activated.

### Auto Strap Refeed

The machine will automatically refeed the strap if a mis-feed occurs.

### Strap End Ejector

Eject end of strap. Get the machine ready for next coil of strap.

### Methods of Cycle Initiation

The machine can be operated by several methods, such as foot pedal switch, start switch, and photo eye switch.

## Option

- Stainless steel frame SUS 304 (TP-601DS)

## Arch Sizes

### TP-601D/TP-601L

H \ W	650	850	1050	1250
400				
600		Ⓢ		
800	N/A			
1000	N/A			
1200	N/A			

Ⓢ Standard size: 850 mm(W) x 600 mm(H)

- N/A means not available
- Larger arches on request

## Tauris Family

# TP-601L

### Low-Table Model

- Designed to accommodate bulky or heavy packages
- Other features are the same as TP-601D

## TP-601D / TP-601L

## Technical Data

**Strap Width** 8 mm-12 mm

**Strap Thickness** 0.55-0.75 mm

**Strap Tension** 7-70 kg

**Speed Per Minute (60Hz)** 29 straps

**Net Weight** 220 kg for TP-601D

235 kg for TP-601L

### Electrical Requirements

110V, 220V, 230V 50/60Hz 1PH

220V, 380V, 400V 50/60Hz 3PH

# Economy Machine

Affordable for every budget

## TP-6000

The TP-6000 is an economical automatic strapping machine for wide straps (8 mm-15.5 mm). With proven quality and competitive price, it is the most cost effective solution for wide straps general purpose application.
